Hi Angie,

Can you give a read through Alex's subsequent email below any my draft follow-up. **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

For both you and Chip, what do you think? I had thought that you could reply back to Alex and so address his separate PRM requests as a single point of contact. As it is now Alex has had conversations and responses back from three different RPMs.

Michael

Hi Alex,

Hi, Michael:

Thank you for your reply.

After we googled, we found that there could be soil, underwater and air (vapor) contamination from these superfund sites nearby, especially the Vapor intrusion, because the air can reach pretty far away. They are very risky to human health. That's our main concern.

From this email, if I understand correctly, there are no such risks from the superfund sites nearby if we live in this property. we don't need to worry about the water we drink and air we breathe. Am I right?

In addition, may we ask how the status of these superfund sites are, are they in good control, when will they be able to be deleted from the superfund list?

Thank you very much again

Alex

Hi Alex,

The property at Ex. 6 Personal Privacy (PP) in Sunnyvale is located about a quarter-mile from the Triple Site Superfund Site and that site's area of contamination. The Triple Site include the Signetics Site, the AMD 901/902 Site, and the TRW Microwave Site. The AMD 915 Site is adjacent to the Triple Site. The screenshot below will help give you an idea of where the sites are located:

There is no indication that there are harmful contaminants related to Superfund Sites at the property you're asking about. However, please note that there may be other environmental sites near Ex. 6 Personal Privacy (PP) e that are overseen by the state of California and not the EPA. Two state website that will help you locate any potential sites overseen by California are:

- The California Regional Water Quality Control Board: <https://geotracker.waterboards.ca.gov/>
- California Department of Toxics Substance Control: <https://www.envirostor.dtsc.ca.gov/>

Sincerely,

Michael

Hi, Edwin:

Nice talking to you just now. Here is the property address [Ex. 6 Personal Privacy (PP)] SunnyVale, 94085.

It's close to the following superfund sites:

- 1.ADVANCED MICRO DEVICES, INC. 901 THOMPSON PL (0.5 mile)
- 2.SIGNETICS, INC. 811 E ARQUES AVE SUNNYVALE, CA, 94086 (0.4 Mile)
- 3.TRW MICROWAVE, INC (BUILDING 825) 825 STEWART DR (0.6 mile)
- 4.ADVANCED MICRO DEVICES, INC. (BUILDING 915) 915 DEGUIGNE (0.7 mile)
- 5.WESTINGHOUSE ELECTRIC CORP. (SUNNYVALE PLANT) 401 HENDY AVENUE (0.4 mile)

Could you help us to understand whether it's risky to live in this property due to the superfund sites nearby, or anything we need to know before we make the decision?

Looking forward to hearing from you for your professional advice. My phone number is [Ex. 6 Personal Privacy (PP)] Thank you very much!

Have a nice day

..... Alex
